BCC16

Introducing the XO-BCC16 Car Bluetooth Transmitter, your ultimate solution for wireless audio streaming and hands-free calling in your car. With Bluetooth version 5.3 and a powerful main chip, enjoy seamless connectivity and high-quality audio transmission. Featuring a sleek black design and compact size, it easily fits into any setup. With a wide range of supported features, including A2DP, AVRCP, HSP, HFP, and support for MP3/WAV playback formats, it ensures versatile and efficient performance. Plus, with FM transmitter functionality, enjoy broadcasting your favorite tunes directly to your car stereo. Powered by USB-DC5V input, connect effortlessly to your car's power source and start streaming music and making hands-free calls right away. The ABS construction ensures durability, while the compact dimensions make it easy to place in your car. .
