

Bike on Wax Chain re-action oil - 100 ml

GSM112232
5901854544489

This oil has been created for both recreational riders and those using bikes as a daily mode of transport. It forms a thin, non-staining film which increases the chain's lifespan and reduces stretching. Excellent lubricating qualities along with protective layer's elasticity, resistance to humidity and changing weather conditions make it a highly recommendable lubricant for all kinds of chains and sheathed cables. It has superior creeping properties and protects from corrosion. Perfect for users looking for an easy to use product without having to decide which lube to choose.

Specification

Capacity: 100 ml
Brand: Bike on Wax
Warranty: 12 month
