BWOO®

BWOO®

The BWOO over-ear headphones are equipped with 40mm composite drivers that deliver rich, immersive sound. The highs are clear and detailed, while the mids are full and warm, allowing you to enjoy music with excellent clarity and depth. Thanks to Active Noise Cancellation (ANC) technology, the headphones effectively eliminate surrounding sounds, enabling full focus on music, studying, or conversations – at home, on the go, or during commutes. The efficient lithium-polymer battery provides up to 10 hours of music playback or talk time on a single charge, and a full recharge takes just 2 hours. The energy-saving design ensures reliable performance throughout the day. Dynamic RGB lighting adds character to the headphones, and the modern design available in black or white makes them a perfect blend of style and functionality – ideal for everyday use and travel.
