BO-HF10

Professional headphones feature a dynamic driver with a diameter of 14 mm and a composite membrane, creating a stunning sound field for impressive stereo sound, presenting clear mid-tones, powerful bass, and bright highs, allowing you to enjoy immersive sound while gaming, listening to music, or watching movies. Advanced DAC decoding technology offers improved sound clarity and rich audio details, contributing to Hi-Fi sound. The ergonomic design ensures a perfect fit in your ears, allowing them to sit snugly in the ear canal without falling out even during jumps, making them ideal for various occasions, including running, jogging, shopping, and more. Easy button control allows you to answer calls, adjust the volume, or switch to the previous or next track with a light press of a button. The ultra-clear noise-canceling microphone provides an excellent experience during calls. The TPE cables are soft and durable, ensuring hassle-free use, while the built-in conductors made of pure oxygen-free copper minimize current interference for lossless sound quality. With a Lightning connector, they are compatible with many iOS devices, such as iPhones and iPads.

Specification
