Buy now

Shine is a classic transparent smartphone case with an addition of glitter. It provides a universal and aesthetic form of protection. Products made of TPU material look great due to the thicker frame. The Shine series features cases with a thickness of 2 mm. The lightweight and flexible product is perfectly fitted to the device. The case does not increase the weight or size of the smartphone. The raised button areas and precise cutouts for ports ensure user comfort. Product features: - The 2 mm Shine case does not interfere with wireless charging; - The product is suitable for printing; - Effective protection for the smartphone against damage; - Safe use with car mounts. It is not recommended to expose the case to intense sunlight for an extended period. UV radiation may negatively affect its appearance.
