AP004

Record sound with the wireless microphone from Devi! The microphone with a USB-C connector allows for high-quality sound recording during video recordings, streams, or video calls. The built-in battery provides 7 hours of operation. You don't need an app to use it. The device works on a Plug and Play technology, just connect the connector and start recording. The built-in ENC reduces unwanted sounds and improves recording quality. The range is up to 10 m.
