Buy now

2.5D tempered glass with 9H hardness effectively protects the phone's screen from damage. It ensures full image clarity and resistance to fingerprints and dirt thanks to the oleophobic coating. The glass is incredibly thin (only 0.3 mm thick), which allows for maintaining full sensitivity of the touch screen after application. The adhesive on the entire surface eliminates the risk of dust and dirt accumulation under the glass, while the rounded edges increase comfort and safety during use. The product is dedicated solely to phones with flat screens.

Specification

Brand: TFO
Thickness: 0,30 mm
Hardness: 9H
Material: tempered glass
Warranty: 12 month

Attribute

- phone protection
- oleophobic coating
- full-surface adhesive
