Buy now

2.5D tempered glass with a hardness of 9H effectively protects the phone screen from damage. It provides full clarity of image and resistance to fingerprints and dirt thanks to the oleophobic coating. Its ultra-thin structure with a thickness of 0.3 mm allows for maintaining full sensitivity of the touch screen. The adhesive over the entire surface eliminates the risk of dust and dirt accumulation under the glass, while the rounded edges enhance comfort and safety of use. The product is intended for phones with flat screens.

Specification

Set contains: wet wipe
