Buy now

2.5D tempered glass with a hardness of 9H effectively protects the phone screen from damage. It ensures full image clarity and resistance to fingerprints and dirt thanks to the oleophobic coating. The glass is extremely thin (only 0.3 mm thick), which allows for full sensitivity of the touch screen after application. The adhesive covers the entire surface, eliminating the risk of dust and dirt accumulation under the glass, while the rounded edges increase comfort and safety of use. The product is dedicated solely to phones with flat screens.

Specification

Set contains: dry wipe
wet wipe
Brand: TFO
Thickness: 0,30 mm
Hardness: 9H
Material: tempered glass
Warranty: 12 month

Attribute

- screen protection
