

Tempered glass 6D for Samsung Galaxy S22 / S23 black frame

OEM100918
5900495014238

6D tempered glass is a product that protects smartphone screens from breaking or scratching. The 6D series features a crystal-clear structure with a thickness of 0.40 mm, and a hardness of 9H. Additionally, the tempered glasses have frames tailored to the dimensions and profile of the display. The precise craftsmanship of the product prevents the glass from lifting or the frame from covering the screen. The 6D tempered glass fully transmits the user's touch. Thanks to a special coating, the product does not create air bubbles underneath its surface. The set includes accessories for cleaning and degreasing the screen before installation.

Specification
