

Tempered glass 9D for iPhone 14 Pro 6,1" black frame

OEM0101062
5900495006653

The 9D series is an enhanced tempered glass with increased flexibility, designed to protect the smartphone screen from scratches and damage. The product features adhesive applied across its entire surface. The glass offers high light transmission, ensuring the screen's appearance remains unaffected. It does not alter touch sensitivity. An oleophobic coating reduces smudges, enhancing the phone's aesthetics and user comfort. The 9D series includes frames that match the design of the smartphone screen.
