Buy now

The 9D series is reinforced tempered glass with increased flexibility, designed to protect the smartphone screen from scratches and damage. The product features adhesive on the entire surface. The glass is characterized by high light transmittance, ensuring the appearance of the screen remains unchanged. It also does not affect touch sensitivity. The oleophobic coating minimizes smudging, enhancing the aesthetic of the phone and user comfort. The 9D series includes frames that match the appearance of the smartphone screen.
