Buy now

OG Premium tempered glass is a screen protector for your phone against damage. It is coated with an electrostatic and oleophobic layer that helps prevent fingerprints from sticking. Additionally, it makes it easier to clean the glass from dirt. The glass has a thickness of 0.2 mm and features adhesive applied to the entire surface. This limits the formation of air bubbles during application. The product is made of three layers and has high transparency. Its fit to the selected phone model protects the entire surface, including the rounded edges of the display.
