FLS-70

The solar LED decoration Sunari Lotus Flower FLS-70 is a standing lamp that imitates a lotus flower. Thanks to the technology used, this decoration is equipped with a built-in LED that, combined with solar power, allows it to automatically illuminate with a pleasant warm light after dark. This charming effect of backlit flowers creates a unique atmosphere, ideal for relaxation or spending evenings outdoors. Made from high-quality materials, the lamp is durable and weather-resistant. This energy-efficient lamp uses free solar energy, which helps save on electricity bills and care for the environment. An additional advantage is its low power consumption and a built-in battery with a capacity of 720 mWh. Thus, in the best conditions, the lamp will shine until morning.
