Neon LED Neolia provides a beautiful effect of colorful glow in the room. It works great as a decoration to be placed on a shelf in the living room or as decorative lighting in a children's room. The neon holder allows for hanging the lighting on vertical surfaces. The atmospheric light will suit the interiors of restaurants, bars, and other spaces where the colors will enhance the atmosphere of the place. What sets the neon apart is its uniform light diffusion, with no noticeable light spots. Thanks to LED technology, the neons consume relatively little electricity. The device can be powered by 3 AA batteries or a USB plug. Neons are available in many shapes and colors, including white, orange, green, red, and pink. The device is made of plastic in white color. The dimensions depend on the type of design.
