

Hybrid Crystal case for iPhone X / XS transparent big hole

GSM184512
5907457775930

Crystal is a meticulously designed case that provides comprehensive protection for the phone, taking care of every element. Made from high-quality TPU and PC materials, it combines flexibility with shock resistance, effectively safeguarding the device against impacts and scratches. The transparent design of the case allows the original look of the phone to be maintained, while the chrome-plated finish on the buttons adds elegance and ensures smooth operation. The raised edges effectively protect the screen and camera, preventing direct contact with surfaces, which minimizes the risk of damage and scratches. Precise cutouts allow for convenient access to all ports and enable the attachment of a strap. The Crystal case is an excellent choice for those seeking effective phone protection without compromising on aesthetics and functionality.

Specification
