

Decor case for iPhone 16 Pro Max 6,9" Spring

GSM185863
5907457789104

The Decor case is made from a combination of two materials – TPU and PC, providing excellent protection against damage. The dual-layer construction effectively safeguards the most impact-prone areas, while the additional rubber filling ensures a perfect fit to the device. The case not only protects the phone but also gives it a unique character thanks to the durable print that does not wear off during use. The glossy finish adds elegance and increases resistance to daily use. The large cutout for the camera, along with raised edges, effectively protects the camera island and lenses from scratches and damage. Thanks to the precise fit, the case does not significantly increase the phone's size and does not limit the use of car mounts.

Specification

- Compatible with MagSafe:** nie
- Brand:** TFO
