## Acrylic Carbon case for Samsung Galaxy S25 Plus black

GSM189365 5906961928160

The Acrylic Carbon case is a robust cover equipped with anti-slip edges that facilitate a secure grip and prevent accidental drops of the device hand or holder. Additionally, the back of the case is solid and durable, meaning that the phone will be well protected even during a fall. The camera island is further safeguarded by metal raised edges around the lenses, which protect them from scratches. The edges around the entire phone are made of TPU with anti-yellowing and anti-slip technology, meaning that they not only do not yellow but also provide a better grip. The textured surface additionally strengthens the case, protecting the phone from damage. The Acrylic Carbon case is made from high-quality materials, with precise cutouts for the ports. It features metallic buttons that allow for the use of all phone functions without any limitations. Moreover, despite its robust protection, the case does not significantly increase the size of the phone nor restrict the use of car mounts. With excellent craftsmanship and effective protection, the Acrylic Carbon case is an essential element for securing your phone.
