Buy now

The laptop case with a stand function allows you to position the device at a 9° angle. Working in this position is more comfortable and ergonomic. The space created between the stand and the device allows for faster heat dissipation. The cover is secured with magnetic clasps, giving you easy access to your laptop. Made of synthetic leather, it is soft to the touch and stylish. The interior lining is covered with a velvety material that protects the device from scratches. The leather material protects against splashes. Available in black and navy blue.
