Buy now

The case is made of flexible TPU material, providing effective protection for the phone against damage. The electroplating process gives it an elegant appearance, highlighting the unique character of the device. Precision craftsmanship with 1:1 openings guarantees a perfect fit for the phone, ensuring convenient access to all functions. Additionally, the case is equipped with a special protective glass for the camera lens, effectively safeguarding it against scratches and loss of sharpness. Compatibility with MagSafe technology allows for seamless use of accessories and wireless charging. The case is available in 11 different colors, enabling customization to individual style and preferences. This combination of protection, functionality, and elegance in one accessory.
