

Forever tempered glass 2,5D for Nothing Phone (2a) Plus

GSM189523
5906961933041

The tempered glass from Forever is the perfect choice for phone protection. It is made using Case-friendly technology, which means it is compatible with most cases and covers. It features the highest hardness level of 9H (the maximum score on the scale), which contributes to its high resistance to scratches. Additionally, it is extremely thin, with a thickness of just 0.3mm. It boasts a transparency level of 99%, ensuring that the colors displayed by the phone remain nearly unchanged. Thanks to the oleophobic layer, the glass maintains top-notch touch sensitivity. Installing the glass is very simple, as the package includes all the necessary elements for proper installation.
