Audi case for iPhone 15 Pro 6,1" black Silicone Case

BRA100512 6955250226554 AUDI000045

AUDI Silicone Case. We present a collection of modern protective cases dedicated to iPhone phones, created in collaboration with the automotive giant - the German brand AUDI. These unique covers emphasize your attachment to the automotive giant. The cases are made from flexible and durable silicone, with a soft microfiber lining on the inside. They protect against scratches, shocks, and other damage that may occur during everyday use. Thanks to the flexible silicone, the case fits perfectly to the phone, providing a secure grip and minimizing the risk of accidentally dropping the device. Thus, they not only protect your phone but also look stylish and elegant. The Silicone collection is adorned with a distinctive metal Audi logo, highlighting the product's exclusivity and authenticity. Installing the case on the phone is extremely easy, and the case itself is thin enough that it does not significantly bulk up the device or affect its usability. Cases from this collection feature all necessary cutouts for ports and interfaces, as well as integrated covers for the buttons located on the side of the phone. The slightly raised edges of the case protect the screen and the camera lens from scratches and cracks. The collection of fashionable protective cases for iPhone phones, created in collaboration with the AUDI brand, combines functionality, style, and reliable protection for your iPhone. Whether you are a car enthusiast or simply value quality and elegance, these cases are an excellent choice that will highlight the uniqueness of your phone.
