Buy now

Defender Slide is a reinforced smartphone case that provides good device protection. The product consists of several layers that stiffen and strengthen its structure. The case is made of PC, TPU, and has a built-in aluminum finger holder. The entire series features a movable camera cover that protects the lenses and ensures privacy. Additionally, the higher edges protect the screen from cracking or scratching. The cases have necessary cutouts for ports and embossed areas for buttons. The frame has openings that allow for attaching a strap or lanyard. The Defender Slide case is compatible with magnetic mounts.
