Original collection of phone cases for iPhone branded by the renowned Bavarian automotive company BMW.Elite appearance The exterior of the Grip Stand Smooth & Carbon collection cases is covered with carbon fabric and eco-leather, providing a unique look and giving your iPhone an elegant style. BMW is known and appreciated for its sleek design and excellent finish, which is beautifully showcased in this collection of protective cases. The case is additionally adorned with a narrow, hot-stamped blue stripe, which is color-coordinated with the BMW brand. The delicate leather and stylish details give the collection a classic, elegant shape for all devices. A subtle BMW logo confirms the quality and authenticity of the product. Remarkable case with versatile application The collection features an additional strap that has versatile uses. The integrated strap makes using the phone even more convenient. The wrist strap allows for a secure grip on the phone while running and offers a stand function, making it easier to watch movies or conduct video calls. Durable materials and excellent workmanship Only the highest quality materials were used in the production of the cases. The back and sides of the case are made of polyurethane, enhanced with soft-touch eco-leather. Polyurethane provides durability and scratch resistance, while the leather adds a prestigious appearance and ensures that the phone securely fits in your hand. The flexible sides snugly fit the phone while allowing easy installation of the case. Gently raised outer edges protect the phone's screen from damage, and the raised edges around the camera lens safeguard the optics from breaking or scratching. The cases from the Grip Stand Smooth & Carbon collection are the perfect solution for those who value not only functionality but also style and prestige. Product made under license of the BMW brand.
