The hybrid case Optik Armor provides excellent protection for your device. The precisely crafted case combines a flexible TPU cover and a practical PC slider that effectively protects the lens from scratches and other damage during everyday use. An additional advantage is the shock-resistant air cushions that absorb impacts and protect the phone from damage. The matte texture of the case is resistant to dirt, and its anti-slip properties ensure a secure grip, minimizing the risk of the phone slipping out of your hand. The case is perfectly fitted and does not limit wireless charging capabilities. Optik Armor has been subjected to performance testing and has obtained the MIL STD 810G-516.6 certification, which means it withstood 26 drops from a height of 2 meters. All Spigen products are tested for abrasion resistance and precise fitting, which guarantees their high quality.
