Buy now

The two-tone Spigen Nano Pop MagSafe proposal is an exceptionally stylish case that stands out not only for its designer appearance but also for its high level of protection. The pleasant to the touch and durable polyurethane case effectively protects against scratches and fingerprints, with a protective pattern inside that disperses shocks caused during impact. Additionally, the manufacturer has reinforced the corners using air cushion technology, securing the device during a fall. The colorful frame around the camera elevates the lens above the surface, providing protection against drops or scratches, while also giving the whole a stylish look. The lightweight and slim design ensures that the Nano Pop does not interfere with daily use, and the matte finish guarantees a secure grip. The case is equipped with a ring compatible with MagSafe wireless technology. The magnetic ring ensures maximum charging efficiency and a quick and easy connection with all MagSafe-enabled accessories.
