Buy now

High hardness 9H tempered glass perfectly protects the phone's screen. It provides clarity of image, and the oleophobic coating ensures resistance to fingerprints and dirt. The glass is thin and durable, with a thickness of only 0.3 mm. After application, the phone retains its touch sensitivity. The adhesive covers the entire surface, preventing dust and dirt from accumulating under the glass. The edges of the glass are rounded, ensuring safe use. The product is intended exclusively for phones with a flat screen.
