Buy now

Adapter AJC-01 is an adapter that enables you to connect headphones with a mini-jack connector to smartphones such as iPhone 15, Samsung S20, Huawei P30 Pro, and others that lack a traditional mini-jack input. It allows you to enjoy high-quality stereo 24-bit audio up to 48 kHz and full headphone functionality, including volume control, track switching, answering calls, using the microphone, and the voice assistant.
