

Devia car holder ES049 black with suction cup

BRA013992
6938595331749
ES049

The universal car mount from Devi can be placed on the dashboard or attached to the windshield. The adjustable arms allow for the placement of phones with a width from 3.5" to 6.5". Thanks to the suction cup, the installation and removal of the mount is very simple. The stable arms will secure the phone from falling out. The 360° rotational adjustment allows for comfortable positioning of the screen, making it easy to use the phone while driving.
