

# LCD Display with touch screen for iPhone 14 Pro Incell FHD black

OEM102573  
5907457779594

The product is a display made with TFT INCELL technology. It has all the necessary elements for installation in a smartphone: camera holder, sensor holder, - speaker cover, - foam pads on the ribbons. The foam pads prevent the ribbons from bending too much and disconnecting during phone use.

## Specification
