Fingerprint

Oleophobic  
Coating

Prevent the  
screen bursting

9H  
Surface  
Hardness

The 2.5D Premium glass is a reliable screen protection for your phone, combining quality and user convenience. Made from Asahi glass, known for its exceptional durability, it effectively protects the screen from damage. Thanks to the applied AB Glue layer, the glass application is easy and eliminates air bubbles, ensuring a perfect fit. The 9H hardness provides high resistance to scratches, while the 3D curvature allows the glass to adhere perfectly to the screen, maintaining its full transparency. An additional oleophobic coating prevents the accumulation of fingerprints and dirt, keeping the screen looking fresh and clean for a long time. The 2.5D Premium glass guarantees sensitive and precise touch response, ensuring maximum user comfort. An ideal solution for those who value durability and aesthetics.
