The 2.5D Premium glass is a reliable screen protection for your phone, combining quality and user comfort. Made from Asahi glass, known for its exceptional durability, it effectively protects the screen from damage. Thanks to the applied AB Glue layer, the application of the glass is easy and eliminates air bubbles, ensuring a perfect fit. The 9H hardness provides high resistance to scratches, while the 3D curvature ensures that the glass adheres perfectly to the screen, maintaining its full transparency. An additional oleophobic coating prevents the accumulation of fingerprints and dirt, keeping the screen looking fresh and clean for a long time. The 2.5D Premium glass guarantees sensitive and precise touch response, providing maximum comfort of use. An ideal solution for those who value durability and aesthetics.

Specification

Set contains: wet wipe
dry wipe
