

Tempered glass 6D matte for iPhone XR / 11 black frame

OEM102330
5907457722903

6D Matt Glass is a fantastic solution for gamers and prolific message writers. Matte tempered glass is a product that provides comprehensive screen protection. Made from 9H hardness tempered glass, this glass has anti-reflective properties that minimize glare and reduce dazzling sunlight. An important feature of this product is the matte coating on the glass surface. Thanks to it, you can enjoy using your phone comfortably even in brightly lit environments. The matte surface reduces light reflections, making the screen more readable and visible in any conditions. Matte tempered glass not only protects the screen but also minimizes fingerprint smudges and prevents dirt from sticking. This ensures that the phone always looks like new and is easy to keep clean. The surface of this glass is also extremely pleasant to the touch, providing comfort during device usage. Finger movements across the surface are smooth and enjoyable. This is the perfect solution for gamers or those who write a lot of messages. Matte tempered glass enhances touch precision, allowing for smooth and precise navigation across the screen.
