OG Premium Privacy Tempered GlassThe OG Premium Privacy glass is a tempered glass that not only protects the phone screen but also takes care of privacy and comfort during use. The privacy technology limits screen visibility for onlookers, allowing the user to be confident that the viewed content remains just for them. The glass provides excellent protection for the display against scratches, impacts, and dents. With a hardness rating of 9H, it is extremely durable and resistant to damage. Additionally, the oleophobic coating minimizes fingerprint marks on the screen. The glass with a frame protects the entire screen, ensuring complete device protection. It is ultra-thin and does not distort the image or negatively affect touch sensitivity. The Anti Spy privacy filter ensures that privacy remains secured.
