5907504503196

The Acrylic Carbon cover is a solid cover equipped with anti-slip edges that facilitate a secure grip and prevent accidental drops of the device in hands or holders. In addition, the back of the cover is sturdy and durable, which means that the phone will be well protected even during a fall. The camera island is additionally secured with metal elevated edges around the lenses, which protect them from scratches. The edges around the entire phone are made of TPU with anti-yellowing and anti-slip technology, which means they not only do not yellow but also provide a better grip. The rough surface further enhances the case, protecting the phone from damage. The Acrylic Carbon cover is made of high-quality materials, with precise cutouts for ports. It is equipped with metal buttons that allow for full use of all phone functions without any restrictions. Moreover, despite the solid protection, the cover does not significantly increase the size of the phone or limit the use of car mounts. With excellent craftsmanship and effective protection, the Acrylic Carbon cover is an essential component for safeguarding your phone.

Specification

- Compatible with MagSafe:** nie
- Brand:** TFO
- Complies with:** Phones / smartphones/Samsung/Galaxy S25 Edge
- Colour:** black
- Material:** acrylic metal TPU (thermoplastic polyurethane)
- Functions:** camera island protection raised edges
