FLS-06

This solar lamp is an ideal choice for those looking for high-powered, high-brightness lighting. With an output of 8W and a brightness of 600lm, it provides a strong and bright light that will allow you to see well in the dark. The IP65 rating protects the lamp from rain and dirt, so it can be used in a variety of weather conditions. The lamp is equipped with a PIR motion sensor, which means it will automatically turn on when it detects motion. A capacious 1800mAh lithium-ion battery allows the lamp to run for 8-10 hours, depending on the battery charge. The solar panel is a separate module connected to the lamp with a 3-meter cable, which allows you to conveniently place the lamp in a dark place and the panel in a sunnier place. The solar lamp has a modern design and easy installation, making it ideal for lighting entrance gates, front doors, sheds, gardens, balconies and other places. A twilight sensor controls the lamp's operation, so the lamp will automatically light up when night falls or the light intensity drops below 100 lux, according to the set mode.

Specification

Battery operating time: 10 godz.

Colour: black

Power consumption: 8 W

Diodes number: 1 szt.

Charging time: 8 godz.

Product dimensions (mm) 130 x 115 x 18
length x width x height:

Packages type: box

Gross weight: 450 g

Index of protection: IP65

Warranty: 12 mc

Brand: Forever Light

Color temperature: 6000K

Lumens number: 600 lm

Diodes type: COB

Solar panel type: 5,5V, 300 mA

Package dimensions (mm) 154 x 150 x 93
length x width x height:

Net weight: 380 g

Material: ABS

Power supply : Li-ion 3,7V □ 1800mAh, 6,66Wh

Attribute

Motion detector

Solar panel as a separate part for 5m.
