The Sunari FLS-25 solar LED lamp is ideal for illuminating various outdoor spaces. With a brightness of 300 lumens, the lamp is able to provide enough light to illuminate small spaces. What's more, the lamp features a very low power of 4 watts, which saves energy compared to traditional incandescent bulbs. The lamp is IP65-rated, which means it is fully resistant to dust and water. In addition, the use of a PIR motion sensor saves energy, as the lamp automatically turns on when motion is detected. The lamp uses a capacious 1500mAh lithium-ion battery, which is charged by a solar panel. As a result, the lamp works without the need to connect to electricity and provides a long operating time of 8 to 10 hours when fully charged. In addition, the lamp is easy to install, allowing it to be installed in various places, such as front doors, sheds, gardens, balconies or building facades. The solar panel is adjustable, allowing for the best illumination and more efficient charging of the battery.

Specification

Brand: Forever Light	Colour: black
Color temperature: 6000K	Power consumption: 4 W
Lumens number: 300 lm	Diodes number: 8 pcs.
Diodes type: SMD	Battery: 1500 mAh Li-Ion
Maximal working time: 10 h.	Charging time: 8 h.
Solar panel type: 5,5V, 300 mA	Product dimensions (mm) length x width x height: 135 x 100 x 205
Package dimensions (mm) length x width x height: 205 x 135 x 100	Packages type: box
Net weight: 290 g	Gross weight: 380 g
Material: ABS	Index of protection: IP65
Warranty: 12 month
