FNL-07

The alarm clock with a night lamp offers a wide range of features that may appeal to many users. It is equipped with a rechargeable battery that can be charged using a USB-C port, eliminating the need for a constant power connection. It allows for the setting of three alarms and also has a snooze function. Turning it off is done by touch, which increases convenience. The LCD display shows the current date and time, and with automatic brightness regulation, it ensures user comfort both during the day and at night. Additionally, the sleep function, where the light gradually dims over 30 minutes, makes it easier for those who prefer gentle lighting before sleep.

Specification

Accumulator capacity: 1 200 mAh	Switch: yes
