High-quality decorative lamps that are perfect for decorating balustrades and for any arrangement of space. Universal LED lampsThe LEDs used are characterized by high quality and a wide lighting angle. The lamps can be used in low temperatures and high humidity*. Thanks to the use of LED technology, the lamps are energy-saving and do not heat up. The cords end with an innovative connector that allows for easy and quick connection of several sets of lamps on one power cable. Please protect the controller, plug and socket against moisture and water - these elements of the device are not waterproof! light curtain The lamps are in an innovative form of hanging icicles. Compared to traditional LED strings, the lamps consist of hanging segments that form a curtain. Thanks to this, the set is ideal as lighting for balconies and all kinds of railings. Remote controlIn the set with the lamps, the buyer also receives a remote control that allows you to control the lamps' operating characteristics from a distance. Using the remote control, the user can remotely turn the lamps on or off, set the lighting mode, use the timer or change the brightness of the lamps. timer The curtain has been equipped with a timer function that allows you to set the timer to turn off the lights in the range of 2-8 hours. A great feature that allows you to schedule how long the lights should be on. It allows you to automatically turn off the lights at a selected time of day or night without user intervention.
