Switching power supply 80W/6.67A 12V IP20. Professional switching power supply designed for powering LED-based lighting (LED). The presented power supply is compact, made of high-quality materials ensuring long life and high efficiency. It features good parameters, low power consumption, and an IP20 protection certificate.

## Specification

- Index of protection: IP20
- Power: 80 W
- Input voltage: 90 - 240 V (50 - 60 Hz)
- Output voltage: 12 V
- Warranty: 12 month
