CF01

The astronaut-shaped star and galaxy projector is an impressive gadget from XO. The projector displays colorful and moving galaxy patterns and laser stars. The set includes a remote control that can control the light intensity and change the displayed images. The projector is located in the astronaut's magnetic head, which allows you to adjust the beam angle. The best effect is obtained in darkened rooms, when the projector is aimed at flat surfaces. The device is powered by a USB cable.

Specification

- Usage:** internal
- Packages type:** box
- Input voltage:** DC 5V/1A (max)
- Output voltage:** 100 - 240 V (50 - 60 Hz)
- Colour:** white
- Brand:** XO
- Warranty:** 12 month
