CF4

XO CF4 is a star and galaxy projector in the shape of an astronaut, a striking gadget from XO. The projector displays colorful and moving patterns of galaxies and laser stars. The set includes a remote control that allows you to adjust the brightness and change the displayed images. The projector is located in the magnetic head of the astronaut, which allows for angle adjustment of the light. The best effect is achieved in darkened rooms when the projector is directed at flat surfaces. The device is powered by a USB cable.

Specification

Usage: internal
Power: 5 W
Packages type: box
Input voltage: DC 5V/1A (max)
Output voltage: 100 - 240 V (50 - 60 Hz)
Colour: white
Brand: XO
Warranty: 12 month
