Spigen S560W Bluetooth selfie stick tripod black

BRA013856 8809896742009 AMP05813

The Spigen S560W Bluetooth Selfie Stick Tripod is an innovative tool designed for photography and videography enthusiasts. It stands out not only with its exceptional design but also with its sturdy construction. Built from durable materials, it ensures reliable and long-lasting functionality, while the well-made phone holder provides stabilization, eliminating the risk of accidental drops. The adjustable head (190°) allows you to position your smartphone both vertically and horizontally. The 360° rotating holder grips the phone very tightly, enabling you to take photos from any angle, and the ergonomic shape makes the stick comfortable to hold. The built-in Bluetooth module allows for a wireless connection to your smartphone, removing the need for cables and providing convenient operation. The stick features a telescopic tube, allowing for a wide-angle shot. Additionally, the three tripod legs ensure stabilization while taking photos and videos, making it a practical tool for creating professional content. The manufacturer includes a handy Bluetooth remote with a range of up to 10 meters, which can be mounted on the tripod. The Spigen S560W is an excellent solution that lets you enjoy professional photography and videography capabilities.
