The Forever jump starter JS-400 is a compact car starter with a capacity of 7200mAh, providing reliable support in emergency situations on the road. With the ability to deliver a jump current of up to 600A, it effectively starts vehicles and is additionally equipped with a compressor with a maximum pressure of 150PSI and an LED flashlight.Two USB outputs and one USB-C input allow for charging electronic devices, enhancing its functionality. The JS-400 jump starter offers over 1000 charge cycles, and advanced safety systems protect against short circuits, overheating, reverse polarity, and overloading, ensuring safe usage. A large display makes operation easier, and the package includes clamps, an air hose, valve adapters, a USB-C cable, and a protective bag, making it an ideal choice for drivers looking for a reliable and versatile device.Note: Before purchasing, please check the maximum current drawn by the car. If it exceeds 600A, the device may not function properly.

Specification

Accumulator capacity:	7 200 mAh
Working temperature:	-20°C up to +60°C
Input voltage:	12 V
Output voltage:	12V
Brand:	Forever
Maximum power [W]:	18 W
Warranty:	12 mc
