Buy now

The Neon LED Forever Light provides a beautiful effect of colorful glow in the room. The extremely energy-efficient LED technology ensures that it consumes a minimal amount of electricity. Moreover, it is powered via a convenient USB port. The neon features colorful elements, and its shape fits perfectly into various spaces. The holder in the neon allows for hanging the lighting on vertical surfaces. The ambient light will suit the interiors of restaurants, bars, and other areas where the colors will exceptionally highlight the atmosphere of the place. What distinguishes the neons is their uniform light dispersion, without noticeable light points. The built-in dimming function of the device allows for adjusting the brightness of the light emitted by the neon. Additionally, the Neon is equipped with an ON/OFF switch, which enables easy turning on and off without the need to disconnect it from the power source.

Specification

Switch: yes

Power consumption: 0,87 A

Colour: green
pink

Maximum power [W]: 4,25 W

Packages type: box

Gross weight: 843 g

Dimmer: yes
