The Neolia LED Neon provides a beautiful effect of colored glow in the room. It works great as a shelf decoration in the living room or as decorative lighting in a children's room. The neon holder allows for hanging the lighting on vertical surfaces. The ambient light will fit well in restaurant interiors, bars, and other spaces where colors will particularly enhance the atmosphere of the place. What sets the neon apart is its uniform light dispersion, without noticeable light points. The dimming function built into the device allows for adjusting the brightness of the light emitted by the neon. Additionally, it is equipped with an ON/OFF switch, which makes it easy to turn the neon on and off without having to disconnect it from the power source.
