Neon ART LED Forever Light is a designer lighting element. It is made of durable LED components against a plexiglass background, giving it a unique, aesthetic appearance. Thanks to energy-efficient LED technology, the device consumes minimal energy, and convenient USB power supply ensures versatility and ease of use. The neon light is perfect for pubs, cafes, restaurants, and any other spaces where it aims to enhance the atmosphere of the place. Its uniform light dispersion without visible light points creates an even, ambient glow. The neon is also equipped with a practical ON/OFF switch, and the built-in dimming feature allows for brightness adjustment. The artistic style of plexiglass on which the neon is mounted adds a designer character to the product, perfectly complementing modern interiors.
