

Etteri Hybrid Mag case for iPhone 16 6,1"

GSM186862
5907457798625

The Etteri Hybrid Mag Case is an elegant and functional cover made from flexible TPU and rigid PC back, providing a secure grip and perfect protection for the device. The slim design with a thickness of 1.5 mm does not increase the size of the phone, while the raised edges effectively protect the camera. The built-in magnet (2300 Gs) enables compatibility with MagSafe and wireless charging, without limiting the functionality of car mounts. The transparent back highlights the original design of the device, and precisely cut openings ensure full functionality. The product is packaged in a minimalist, eco-friendly box that emphasizes its modern character.
