MCC-201

The case for iPhone 16 is equipped with a retractable MagSafe, allowing for a 360-degree rotation, providing versatility in viewing angles for added convenience. It features strong magnetic adhesion capabilities, ensuring secure attachment, and is compatible with wireless charging. Made from highly transparent, eco-friendly material, it offers a clear view while being environmentally conscious. With a net weight of 50g, the case is lightweight yet sturdy, combining the flexibility of TPU with the durability of PC to provide optimal device protection.
