Laptop power bank TB-200 The TB-200 power bank with a power output of 100W provides fast charging for phones, tablets, and laptops, offering wide usability options. It supports fast charging protocols, allowing efficient power supply to connected devices as well as other power banks with an output of up to 60W. With two built-in cables, there is no need to take extra wires, and its compact size makes it easy to fit in a backpack or laptop bag. Thanks to its large battery capacity, you can charge a smartphone multiple times, and the ability to charge up to 5 devices simultaneously using different ports and cables makes it exceptionally practical. The display allows for convenient monitoring of the charge level.
